

QUICK START GUIDE

SUN, EARTH & MOON MODEL

1. Assemble the Earth and Sun.
2. Place the Sun in the center of the board facing circle 1.
3. **Seasons Activity**
Make copies of the *Sun, Earth & Moon Inquiry Activity Sheet*. (1 per student)
4. To complete the *Seasons Activity*, proceed to Inquiry 1. Note that students will need the small Hemisphere Season cards to place on the board.
5. Have students complete Inquiries 1-4.
6. **Phases of the Moon Activity**
For the *Phases of the Moon Activity*, see the Teacher Guide for complete instructions. Note that students will need an Evo for this activity.
7. Tip: Dim the lights in the classroom for better visibility of the model.

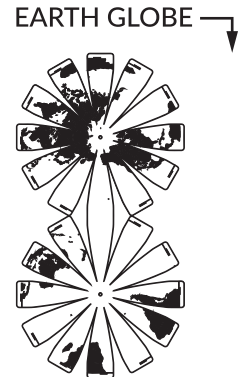

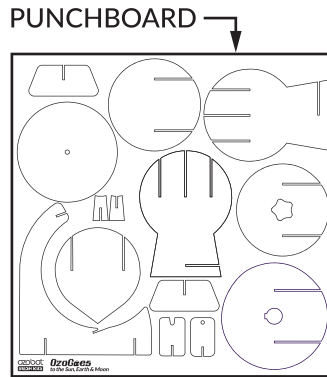

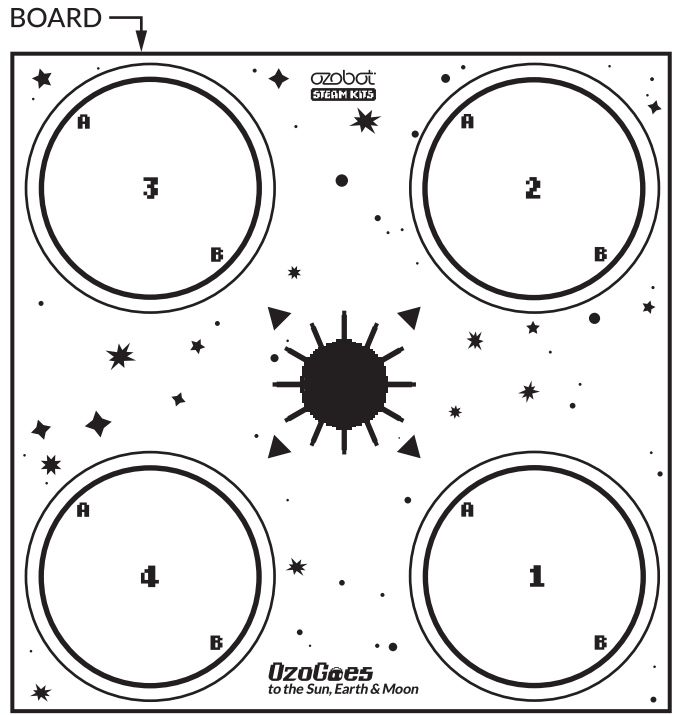

Instructions for running an Ozobot Blockly program on your Evo.

- Enter the URL found on the activity sheet in a browser window.
- If you're using an iPad, open the program. Then load the program using the flashloading option found at the bottom of the workspace. Click the power button on Evo twice to run the program.
- If you're on any other device, open the program. Click the bot icon on the right side of the Ozobot Blockly workspace and follow the on-screen instructions to connect a bot. Click "Run Program" to begin the activity.

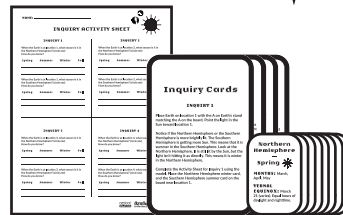

To download available activities for this kit, visit ozobot.com/steamkits or scan the QR code.
