

QUICK START GUIDE

SUNDIAL MODEL

- 1. What Time Is It, Sundial?**
Make copies of the *What Time Is It, Sundial?* Activity Sheet. (1 per student)
- Assemble the Sundial and the flashlight holder according to the instructions.
- Follow the instructions on the *What Time Is It, Sundial?* Activity Sheet.
- 4. Evo's Time Challenge Activity**
Make copies of the *Evo's Time Challenge* Activity Sheet (1 per student). Note that students will need an Evo, and a compatible device to run an Ozobot Blockly program for this activity.
- Follow the instructions on the Activity Sheet. Students will run the program and record the time when the bot stops. Then, they will create a comic to sequence Ozobot's day.
- Tip: Dim the lights in the classroom for better visibility of the model.

Instructions for running an Ozobot Blockly program on your Evo.

Enter the URL found on the activity sheet in a browser window.

If you're using an iPad, open the program. Then load the program using the flashloading option found at the bottom of the workspace. Click the power button on Evo twice to run the program.

If you're on any other device, open the program. Click the bot icon on the right side of the Ozobot Blockly workspace and follow the on-screen instructions to connect a bot. Click "Run Program" to begin the activity.

To download available activities for this kit, visit ozobot.com/steamkits or scan the QR code.
